

courses and conferences

conferences

Genomics of Brain Disorders

14-16 April

Personal Genomes

28-30 April

Applied Bioinformatics and Public Health Microbiology

5-7 May

Curating the Clinical Genome

12-14 May

Vesicle Trafficking & Pathways to Neurodegeneration

17-19 May

Genomic Epidemiology of Malaria

7-9 June

Nursing, Genomics and Healthcare

7-9 July

CRISPR and Beyond: Perturbations at Scale to Understand Genomes

1-3 September

Virus Genomics and Evolution

13-15 September

Organoids: Advances and Applications

28-30 September

Microbiome Interactions in Health and Disease

13-15 October

Plant Genomes in a Changing Environment

18-20 October

World Congress on Genetic Counselling

27-29 October

Human Evolution - From Fossils to Ancient and Modern Genomes

2-4 November

Epigenomics of Common Diseases

16-18 November

Mitochondrial Medicine

30 November-2 December

courses

laboratory courses

Next Generation Sequencing

19-23 April

RNA Transcriptomics

21-25 June

Single Cell Technologies and Analysis

26-30 July

computational courses

Fungal Pathogen Genomics

10-14 May

Systems Biology: From Large Datasets to Biological Insight

21-25 June

Summer School in Bioinformatics

28 June-2 July

Proteomics Bioinformatics

12-16 July

Genetic Analysis of Mendelian and Complex Disorders

12-16 July

Genetic Analysis of Population-based Association Studies

20-24 September

Bioinformatics for Immunologists

27 September-1 October

Next Generation Sequencing Bioinformatics

24-29 October

lecture/discussion courses

Public Engagement Masterclass

19-21 July

Science Policy: Improving the Uptake of Research into UK Policy

23-25 August

[courses - africa - asia - latin america](#)

Next Generation Sequencing Bioinformatics

13 April-10 June (Africa)

Working with Pathogen Genomes

10-14 May (Asia)

Viral Genomics and Bioinformatics

7-11 June (Latin America)

Helminth Bioinformatics

28 June-2 July (Asia)

Antimicrobial Resistance of Bacterial Pathogens

26 September-1 October (Africa)

Genomics and Epidemiological Surveillance of Bacterial Pathogens

25-29 October (Latin America)

Malaria Experimental Genetics

31 October-5 November (Africa)

Practical Aspects of Drug Discovery: At the Interface of Biology, Chemistry and Pharmacology

28 November-3 December (Latin America)

online

[bacterial genomes courses](#)

Accessing and Analysing Microbial Genome Data

Antimicrobial Resistance in Bacterial Pathogens

Comparative Genomics using Artemis Comparison Tool (ACT)

Disease Outbreaks and Antimicrobial Resistance

From DNA to Protein Function using Bioinformatics

[bioinformatics course](#)

Bioinformatics for Biologists: An Introduction to Linux, Bash Scripting, and R NEW!

[genomics in clinical practice](#)

Genomic Scenarios in Primary Care NEW!

What is Genetic Counselling?

[coming soon](#)

Train the Trainer Online

May 2021
